

D7.7 - Annual report on collaboration - Y1

This report corresponds to Deliverable D7.7 - Annual report on Collaboration - Y1 of the SustainML project. This deliverable covers the main collaborations between SustainML consortium members and organizations, EU projects and communities external to the project.

The report provides a comprehensive account of research collaborations during the specified timeframe. It highlights partnerships with various research groups and the ROS community, shedding light on their objectives, activities, and contributions to the AI applied to robotics field.

SustainML is financed by EU

This project has received funding from the European Union's Horizon 2020 research and innovation program under grant agreement No 101070408. The project started in October 2021 and will end in October 2025. The opinions expressed on this website reflect only the author's view and reflect in no way the European Commission's opinions. The European Commission is not responsible for any use that may be made of the information it contains.
